ABOUT ME

I enjoy learning new technologies and utilizing them to solve real-world problems. From the moment I produced "hello world" in the console of my first application, I knew I was hooked into the world of software development. But software development has never been "just a job" for me, it's offered an engaging challenge to continually learn and improve my skills in creating high-quality software. What started with a simple "Hello World" has become a full-fledged passion that only gets more exciting as the years go by.

Below you will find projects I've completed that showcase my skills and general background in developing software.

EXPERIENCE

Landing Page
(www.landingPage.netlify.app)
Hooked into the world of software development. But software development has never been "just a job" for me, it's offered an engaging challenge to continually learn and
Built with HTML, CSS and JavaScript and sass

Multi-payer Tic Tac Toe Game
(www.landingPage.netlify.app)
Hooked into the world of software development. But software development has never been "just a job" for me, it's offered an engaging challenge to continually learn and
Built with HTML, CSS and JavaScript and sass

CGPA Calculator
(www.landingPage.netlify.app)
Hooked into the world of software development. But software development has never been "just a job" for me, it's offered an engaging challenge to continually learn and
Built with HTML, CSS and JavaScript and sass

Real-Time Chat App
(www.landingPage.netlify.app)
Hooked into the world of software development. But software development has never been "just a job" for me, it's offered an engaging challenge to continually learn and
Built with HTML, CSS and JavaScript and sass
